PROFESSIONAL SUMMARY

Management Analyst with 3+ years of experience improving business operations through process redesign, management reporting, inventory optimisation, and business systems. Built a multi-module analytics platform supporting an 80+ member organisation, reduced manual reporting effort by approximately 70%, improved inventory turnover by 20%, and maintained approximately 98% stock accuracy. MBA graduate and UGC NET qualified.

CORE COMPETENCIES

Business Analysis | Operations Management | Process Improvement | Business Systems | MIS & Management Reporting | Inventory & Supply Chain | Workflow Automation | Stakeholder Management | Change Management | SOP Development | Root-Cause Analysis | Training

PROFESSIONAL EXPERIENCE

Management Analyst – Business Analytics & Operations

Group Biopolis (Biopolis + Ultrapolis), Panchkula, India | Sep 2023 – Present

- Co-led the design and rollout of a multi-module internal analytics platform covering Sales, CRM, Inventory, Finance, Attendance, and Employee Performance, now serving as a primary decision-support layer for an 80+ member organisation.
- Developed 13 Looker Studio dashboards for sales operations, lead verification, inventory, purchasing, and vendor performance.
- Reduced manual reporting effort by approximately 70% through workflow automation covering data refresh, email-to-data ingestion, timestamps, and operational logging.
- Led inventory rationalisation across 500+ SKUs, reducing active lines to approximately 400, lowering concurrent shortage complaints from 17 to 2, and improving inventory turnover by 20%.
- Maintained approximately 98% stock accuracy across two companies through structured monitoring and cross-company reconciliation.
- Designed MIS outputs and operational systems that converted raw data into decision-ready information for senior management.
- Trained 30+ non-technical employees and developed SOPs, training guides, and system documentation to support organisation-wide adoption.

Divisional Manager

Bharat Financial Inclusion Limited, Ludhiana, India | Sep 2022 – Feb 2023

- Managed a 72-member field division serving 7,500+ clients across 10 operational regions.
- Reviewed field productivity, target achievement, customer servicing, and divisional performance to identify operational bottlenecks.
- Implemented revised employee engagement practices; approximately 40% of the monthly operational target was achieved during the initial cycle.
- Prepared performance reports and operational insights for senior management.

Customer Delight Intern

Zolostays Property Solutions Limited, India | Feb 2021 – May 2021

- Managed 2,000+ support cases with 99.95% processing accuracy and 95% SLA compliance.
- Reduced refund-delay tickets by approximately 60% through process documentation and workflow improvements.

SELECTED BUSINESS SYSTEMS & PROJECTS

Internal Analytics & Decision-Support Platform

- Built and implemented a multi-module operational platform integrating reporting across sales, CRM, inventory, finance, attendance, and employee performance.
- Translated management requirements into dashboards, structured workflows, and operational monitoring systems used in daily decision-making.

Inventory Rationalisation & Visibility System

- Analysed 500+ SKUs and supported rationalisation to approximately 400 active lines while improving inventory turnover and reducing shortage complaints.
- Established structured inventory visibility, shortage escalation, and reconciliation processes across two companies.

Dashboard Refresh Utility

- Developed a lightweight Chrome extension to address Looker Studio refresh latency and improve access to current operational information.

AI-Assisted Call Analysis System

- Built an internal workflow that converts call recordings into structured insights including tone, intent, positives, gaps, and action points to support employee coaching.
