

PRATAP JINDAL

MANAGEMENT ANALYST — STRATEGY & OPERATIONS | BUSINESS SYSTEMS & TRANSFORMATION

Mohali / Panchkula, India | +91 70090 19719 | pratapjindal812@gmail.com | linkedin.com/in/pratap-jindal | Open to Relocation & Sponsorship

PROFESSIONAL SUMMARY

Dynamic, analytical **Operations & Business Systems Leader** with 3+ years on the Senior Management Team of a multi-entity pharmaceutical distribution group, alongside prior large-scale field leadership managing ₹75 Cr monthly portfolios. Proven track record translating operational bottlenecks into automated business systems, standardized governance, and measurable P&L growth. Directed the design and company-wide rollout of an 18-module decision-support platform for an **80-member organization**, rationalized 500+ SKUs to deliver a **20% improvement in Inventory Turnover Ratio (ITR)**, and automated core reporting workflows to **cut manual operational overhead by 80%**. Rare operational-technical hybrid skilled in strategic advisory, business process re-engineering (BPR), and rapid systems prototyping (Looker Studio, Apps Script, Supabase/React, Android). **MBA (CGPA 8.83/10), UGC NET Qualified** (Assistant Professor in Management).

CORE COMPETENCIES

Strategy & Operations: Business Process Re-engineering (BPR), SKU Rationalization, Root-Cause Analysis (RCA), SLA & KPI Governance, SOP Development, Cross-Functional Team Leadership (80+ FTEs), Change Management & Training.

BI, MIS & Analytics: Executive MIS Decks, Looker Studio (13 Production Dashboards), Advanced Google Sheets (QUERY, ARRAYFORMULA), Excel Financial Modeling, Tableau, PostgreSQL, ERP/CRM Systems (MARG ERP, OMEGA CRM).

Automation & Systems: Google Apps Script Enterprise Pipelines, Webhooks, REST APIs, Chrome Extension Development (Manifest V3), Real-Time WebSockets (Firestore), Mobile Engineering (Android Kotlin / Jetpack Compose).

AI & Emerging Tech: Gemini API Integration, Conversational Voice Activity Detection (Web Audio), Automated Call QA Pipelines, Optical Character Recognition (Tesseract/PDF.js), Prompt Engineering.

PROFESSIONAL EXPERIENCE

Management Analyst — Strategy & Operations | Group Biopolis (Biopolis + Ultrapolis Lifesciences) Panchkula, India | Sep 2023 – Present

Appointed to Senior Management Team to lead operational strategy, business systems transformation, inventory rationalization, and executive reporting across dual pharmaceutical distribution entities (80-member organization).

- Enterprise Decision Infrastructure:** Directed the end-to-end architecture, coding, and rollout of an 18-module internal decision-support platform (covering Sales Day-on-Day, Party Health, MR Field Quotas, CRM, Inventory, Finance, Attendance) serving as the primary operational backbone with zero external consultants.
- 13 Production Looker Dashboards:** Commissioned and deployed 13 role-based Looker Studio dashboards across 4 operational departments; utilized daily by Managing Directors for real-time sales closing, lead verification, and vendor SLA tracking.
- Proprietary Cache-Bypass Tool:** Identified a critical 15-minute data latency constraint in Google Looker Studio; engineered a custom Chrome Extension (Manifest V3) that forces on-demand cache-busting refresh queries, delivering live visibility during month-end sales closing.
- 80% Manual Effort Reduction:** Automated cross-departmental data ingestion, sales reconciliation, and email-to-data parsing via Google Apps Script and automated webhooks, saving 40+ operational hours per week organization-wide.
- Inventory Rationalization & 20% ITR Uplift:** Audited 500+ active pharmaceutical SKUs on velocity and gross margins; pruned catalog to ~400 focused lines, driving a 20% improvement in Inventory Turnover Ratio and a 20% sales uplift on rationalized lines.
- Shortage-Escalation Protocol:** Engineered a formal shortage-escalation workflow linking field sales directly to manufacturing plant batches, slashing concurrent stock-out escalations from 17 down to 2 and eliminating distributor brand-switching.
- Inventory Accuracy:** Maintained ~98% audited stock accuracy across both distribution companies through daily visibility registers and structured inter-company inventory reconciliation routines.
- AI-Powered Call QA Pipeline:** Directed an AI-assisted audio QA workflow converting telecalling recordings into structured performance rubrics (sentiment, script compliance, objection-handling gaps), expanding audit coverage from spot-checks to 100% of calls.
- Capability Uplift & Governance:** Designed and delivered a 4-week digital capability training curriculum for 30+ non-technical staff (100% adoption achieved); authored the group's master SOP repository, eliminating key-person operational risk.

PROFESSIONAL EXPERIENCE (CONTINUED)

Divisional Manager | [Bharat Financial Inclusion Ltd \(IndusInd Bank Subsidiary\)](#) Ludhiana, India | Sep 2022 – Feb 2023

Held full P&L, credit collection integrity, and operational accountability for an underperforming rural microfinance division.

- **Field Scale & Portfolio Ownership:** Led a 72-member field operations division managing 7,500+ microfinance borrower accounts across 10 regions, carrying top-line responsibility for monthly targets totaling ₹75 Cr.
- **Behavioral Turnaround via Motivational Modeling:** Diagnosed frontline burnout and sluggish throughput using Maslow's Hierarchy of Needs; overhauled operational cadences around morning empowerment huddles and transparent daily milestone tracking.
- **Incentive Architecture Redesign:** Replaced a punitive review culture with a gamified "Challenge & Reward" incentive structure, lifting field lead conversion by 25% within one operational quarter.
- **High-Velocity Sprint:** Mobilized and synchronized divisional execution to achieve **40% of the monthly ₹75 Cr quota within a single 48-hour weekend cycle**, consistently clearing monthly targets within 2 days of cycle start.
- **Executive Governance & Audit:** Enforced zero cash-transit risk controls, conducted weekly branch audits, and prepared executive portfolio health briefing decks for regional bank leadership.

Customer Delight Intern | [Zolostays Property Solutions Ltd](#) India | Feb 2021 – May 2021

- **Operational Resolution:** Processed and resolved 2,000+ customer lifecycle and property management escalations with 99.95% accuracy and 95% SLA compliance.
- **Workflow Re-engineering:** Mapped refund lifecycles and authored standardized operational SOPs, eliminating approval bottlenecks and **cutting customer refund-delay tickets by 60%**.

SELECTED BUSINESS SYSTEMS & PROTOTYPING PROJECTS

BioMIS Sales & Distribution Analytics Platform (Dash v4) [\[React 19 · Vite · Tailwind · Supabase PostgreSQL\]](#)

Architected single-page web app with 13 analytical views (D1 to D13) and a unified 67-column schema. Built automated "Zero-Sales" diagnostic triggers to identify dormant distributor accounts, slashing query latency by 90%.

Real-Time Workforce & Logistics Dispatch Kanban [\[Google Apps Script · Firebase Firestore · HTML5 Drag-and-Drop\]](#)

Engineered interactive dispatch board providing sub-second synchronization between Google Sheets schedules and field boards via Firestore WebSockets. Implemented headless OAuth 2.0 service authentication to eliminate user sign-in friction.

PrepMaster AI — Voice Mock Interview Simulator (Mock) [\[Gemini 1.5 API · Web Audio API · PDF.js · Speech APIs\]](#)

Built a zero-server-compute voice simulator parsing candidate resumes locally via PDF.js. Features real-time Voice Activity Detection (VAD), noise calibration, and dynamic interruption handling at ~\$0.05 per 20-minute simulation.

pjsync & CallSyncOffice Enterprise Telephony Suite [\[Kotlin · Jetpack Compose · WorkManager · Room DB · OkHttp\]](#)

Built native Android background applications capturing corporate call logs, timestamps, and customer audio recordings, streaming records automatically into central Google Sheets CRM and Supabase Storage.

EDUCATION & ACADEMIC CREDENTIALS

Master of Business Administration (MBA) — Mittal School of Business & NSE Academy, LPU 2021 – 2023 | CGPA: 8.83 / 10.0 (Top Tier)

Bachelor of Business Administration (BBA) — Mittal School of Business, Lovely Professional University 2018 – 2021 | CGPA: 8.36 / 10.0

QUALIFICATIONS & PROFESSIONAL CERTIFICATIONS

Teaching & Research Qualification: UGC NET Qualified (Assistant Professor in Management) — University Grants Commission

Financial Markets & Analytics (NSE Academy / NCFM): Financial Modelling · Investment Analysis & Portfolio Management · Equity Derivatives · Options Trading Strategies · Mutual Funds (Advanced) · Technical & Fundamental Analysis

Analytics, AI & Strategy Credentials: Data Visualization & Communication with Tableau (Duke University) · Prompt Engineering & GenAI Systems · Understanding Financial Markets (University of Geneva) · Financial Markets (Indian School of Business) · Leadership & HR Development
